

Application Serial No. 10/675,322  
Reply to March 27, 2006 Office Action

Docket No. 1232-5166

### REMARKS

Applicants respectfully request reconsideration of this application in view of the foregoing amendments and the following remarks.

#### *Claim Status*

After entry of the foregoing amendments, claims 1 and 4-19 are pending in this application. Claim 1 is amended herein and new claim 19 is added herein. No new matter is added by these amendments.

#### *Response to Restriction Requirement*

The Office Action mailed on March 27, 2006 provides that restriction to one of the following inventions is required under 35 U.S.C. §121:

Species I: FIG. 1

Species II: FIG. 8

Applicants provisionally elect for prosecution the invention of Species I (FIG. 1) upon which claims 1 and 4-19 are believed to be readable. Applicants believe that the restriction requirement is improper and therefore makes the above election with traverse.

Applicant respectfully submits that for a restriction requirement to be proper, MPEP §803, is clear that "there are two criteria for restriction between patentably distinct inventions" as follows:

- "(1) The inventions must be independent or distinct as claimed; and
- (2) There must be a serious burden on the examiner if restriction is not required . . . ." (emphasis added)

Applicants respectfully submit that: all species of restricted claims are properly presented in the same application; undue diverse searching would not be required.
